*The Minnesota Board of Accountancy celebrates 100 Years of Licensure.*

It is an honor and privilege to serve in this centennial year of licensure for Certified Public Accountants. As we reflect on the constant nature of change in our world, the need for regulation remains constant. Let’s take a quick look at some history: On April 22, 1909, the first Certified Public Accountant laws were enacted for licensure. On July 31, 1909, the application was made by the first CPA, Herbert M. Temple, CPA License number 01. The first exam administration in 1909 had only two applicants. While the laws and rules are now more complex they still hold true to the need for a solid education, public experience and examination before licensure. Ethics and good moral character were required then as is today.

Mobility remains a national focus for Certified Public Accountants. In March 2009, North Dakota became the 38th state to pass mobility and there are an additional six states with pending legislation on this issue.

A change was made in the last legislative session to the annual renewal process. As of December 31, 2009, certificate renewals will shift to a three-year cycle based upon last name. After completion of the full rotation, CPAs will be required to renew their certificate once every three years. For this renewal, ALL certificate holders will renew. Please see our web page for specific details. Please note, this change in renewal cycles will not impact your Continuing Professional Education (CPE) reporting requirements, which will continue to have the deadline of June 30th for all CPAs with an active certificate.

There is no change in the importance of licensure and its role in protecting the public for 100 years in the State of Minnesota. It is worthy of note and celebration.

**Future Newsletters**
